

www.dondo.es

Thank you for purchasing our Dondo® GPS tracker for pets. This document contains instructions to help you using your new device in a simple and fast way.

If you need more information visit our website www.dondo.es where you can find more information and a more detailed user manual.

1. CONTENT OF THE BOX

In the box you can find your new Dondo GPS tracker, this user manual, a **micro USB charging cable** and a **clip to attach** your device to the pet collar or harness.

Your new Dondo tracker includes a SIM card which **needs to be activated** to receive the tracker's position in your Smartphone. Please go to www.dondo.es/en/activate and follow the instructions to activate your SIM card.

2. CHARGING THE DEVICE

A full charge of the battery is necessary before using your Dondo the first time. Please let it charge during at least 4 hours this first time; a 2 hours charge will be enough for next times. Charging your tracker is very easy: just plug the micro USB cable to the device and to the power adapter. Led indicators will be turned on, showing that your Dondo is charging. When the red led starts flashing your device will be fully charged.

3. TURN YOUR TRACKER ON

Keep the ON button pressed during some seconds until green and blue lights are lighting.

4. APP REGISTRATION

Download our APP "**Dondo GPS**" from Google Play or Apple Store. Open it and press "REGISTRATION" to proceed with the registration form.

Complete the required information with your email and password, click "agree" in the user agreement and finally press "Registration" to receive the confirmation email.

5. EMAIL CONFIRMATION

Once the registration process is finished **you will receive a confirmation email**. If this email is not in your inbox check your spam folder; please take note that the email sender is our server "Litguardian". In order to confirm your registration you must click in the confirmation link and wait for the confirmation screen.

6. USING THE APP

You must use your registered email and password to enter in the APP.

When you enter in the APP the first time you will be prompt to add your Dondo. Click in "Install immediately" to bind your tracker. In the next screen you must include your ID tracker manually (in the box) or through the QR code of your tracker.

Once you add your Dondo ID proceed to indicate the use for your tracker (Apply range: pet) and enter the phone number of the SIM card included in your Dondo. If you didn't activate your SIM card yet, please go to www.dondo.es/en/activate. Finally click "submit" to finish your registration.

7. YOUR DONDO IS READY!

After registration you can use your Dondo opening the APP and waiting to receive the tracker position in the location screen.

Remember that the tracker must be located outside buildings and within an area with GSM signal. Depending on the GPS signal first tracker position could be received immediately or after some minutes.

If you need further assistance don't hesitate to contact us at info@dondo.es

8. APP MAIN FUNCTIONS

• Tracking:

Go to the location screen to see your pet position in the map. Location will be shown in a green point with time and date.

• Geo-fence:

You can define a security fence with the APP. If your pet is out of the geo-fence your Dondo will send an alert to your smartphone.

• Historical route (trail):

You can see historical routes between two ranges.

• APP time zone setting:

Check if the time shown is correct or set your right time zone.

• Notifications and alarms:

You can activate alarms in the APP to be warned if your Dondo is out of the security Geo-fence or if the battery of your tracker is low.

• Navigation (Go here):

This option will open Google Maps to show the best route between you and your Dondo GPS tracker. Just click in "Go here" in the position information.

• Authorized accounts:

Authorize your family or friends to let them track your Dondo.

• Unbind your Dondo:

If you want to unbind your Dondo from your APP just go to the main screen and click in the upper side where your ID tracker is indicated. A confirmation screen will be shown.

9. ATTACHING THE CLIP

Attaching your tracker to the pet collar or harness is very easy. Place the clip to the tracker. Put the sideboards up and then attach the clip to the tracker like in the picture below.

10. LED LIGHTS

Your tracker has 3 led lights, one is for the GPS tracking, other is for the GSM network and third one is for the battery level.
